

TODAY'S ALL IS FOR BETTER FUTURE

Chemical Name: Propionyl bromide

Synonyms: /

Molecular Formula: C3H5BrO

CAS No: 598-22-1

1 Specification:

Appearance: Colorless liquid

Assay: 98%Min

Boiling Point: 103-103.6 °C/750 mm Hg

2 Usage

- 2.1 also used in Pharmaceuticals fields;
- 2.2 Used as bromo-organic synthesis.

3 Properties

- 3.1 Dangerous for the environment;
- 3.2 Toxic and corrosive to aquatic organisms, may cause effects in the aquatic environment;
- 3.3 It will decompose when meeting heat or water.

4 Packing:

4.1 100kg Iron-Plastic drum on Pallets;

5 Capacity

600Mt Per year.
